Docket No. 50-390.

MEMORANDUM FOR: Thomas Cheng
Structural and Geosciences Branch
Division of Engineering Technology, NRR

FROM: Peter S. Tam, Senior Project Manager
Project Directorate II-4
Division of Reactor Projects - I/II, NRR

SUBJECT: WATTS BAR NUCLEAR PLANT - CORRECTIVE ACTION
PROGRAM ON SOIL LIQUEFACTION (TAC 77548)

As we discussed today, part of the staff's review work on this corrective action plan is to review FSAR Section 2.5 as revised by Amendment 63 (see NUREG-1232, Vol.4). It is my understanding that you and your consultants would perform part of the review while you are doing a site audit April 8 through 12, 1991. Please be aware that my February 19, 1991, letter to TVA announcing the site audit already cited the above TAC number. You should continue to charge time to this TAC number.

Peter S. Tam, Senior Project Manager
Project Directorate II-4
Division of Reactor Projects - I/II
