DRAFT SUMMARY OF INFORMATION COLLECTION REQUEST

Title: Design Information Questionnaire IAEA N-71 (and associated Forms N-72, N-73, N-74, N-75, N-91, N-92, N-93, N-94).

Current Burden/Responses: 360 hours/1 response

Proposed Burden/Responses: 360 hours/1 response

Frequency of Response: One time

Reasons for Changes in Burden/Responses:

The overall burden for completing IAEA Form N-71 and the associated form has remained the same. However, there has been an increase in the overall cost as a result of an increase in the professional hourly rate from \$156/hr to \$258/hr.

Level of Concurrence:

Jane Marshall, Chief
Material Control and Accounting Branch
Fuel Facility Licensing Directorate
Division of Fuel Cycle Safety and Safeguards
Office of Nuclear Materials Safety and Safeguards

Recordkeeping Requirements in Accordance with the Retention Periods for Records Rule:
Not Applicable.

Abstract:

In order for the United States to fulfill its responsibilities as a participant in the US/International Atomic Energy Agency (IAEA) Safeguards Agreement, the NRC must collect information from licensees about their installations and provide it to the IAEA. Licensees of facilities that appear on the U. S. eligible list and have been notified in writing by the NRC are required to complete and submit a Design Information Questionnaire, IAEA Form N-71 (and the appropriate associated IAEA Form) or Form N91, to provide information concerning their installation for use of the IAEA.
