Subject: Davis-Besse FOIA Requests

To all,

Please find attached two (2) FOIA requests associated with Davis-Besse.

The first request is associated with the Exponent Report.

The second request is associated with the NRC's oversight of boric acid leakage and corrosion control at Davis-Besse during the April 2000 refueling outage.

At this point in the process, we have only been requested to provide estimates (search time, review time, and amount of records) on the subject material we may have in our possession.

Because FOIA requests are of high priority, the due date for this estimate is this Friday, May 4.

Although the requested information is associated with Davis-Besse in Branch 6, I thought it prudent to make all of the DRP branch chiefs aware of the request in the event that there is material that is subject to this request in your possession.

Please respond to me as soon as you can so I can complete the estimate by the May 4 due date. If you do not have any records, please respond accordingly.

Eric.

Re: Freedom of Information Act Request

To Whom It May Concern:

Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. 552, as amended, we request copies of any and all agency records and information, including but not limited to, notes, letters, memoranda, drafts, press releases, studies, reports, presentations, investigations, minutes, diaries, logs, calendars, tapes, transcripts, summaries, interviews, analyses, files, data sheets, notebooks, telephone messages, internal or external electronic mail or other electronic data backup tapes, policies and procedures, and all other relevant and/or related information reflecting, relevant to, referred to in, reviewed in connection with, or generated in connection with:

Any and all written, verbal and/or recorded communications (including by transcript or audio/video recording or by any other means) internally between the various offices of the Nuclear Regulatory Commission (NRC) and/or externally between the NRC and any of the following: FirstEnergy Nuclear Operating Company (FENOC); the Nuclear Energy Institute (NEI); the Nuclear Electric Insurance Limited (NEIL); and the Institute of Nuclear Power Operators (INPO) regarding:

The December 15, 2006 Report entitled "Review and Analysis of the Davis-Besse March 2002 Reactor Pressure Vessel Head Wastage Event," prepared by Exponent Failure Analysis Associates and Altran Solutions Corporation.

This request is intended to include, but is not limited to, written communications as well as any documents reflecting all conference calls (including, at a minimum, those held on March 9, March 19, March 22, and April 3, 2007), between the NRC, FENOC and Exponent, regarding the Report.

This request includes all agency records as defined in the Code of Federal Regulations and the agency manual, whether they currently exist in the official "working" investigative or other files, or at any other location, including private residences.

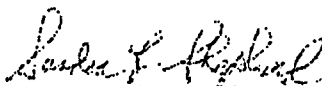

If any records covered by this request have been deleted, destroyed and/or removed after this request, please provide all surrounding records, including but not limited to a list of all records which have been or are deleted, destroyed and/or removed, a description of the action(s) taken, and those relevant to or generated in connection with implementing the action(s).

For any documents or portions of documents that you deny due to a specific FOIA exemption, please provide an index itemizing and describing the documents or portions of documents withheld. The index should provide a detailed justification of your grounds for claiming each exemption, explaining why each exemption is relevant to the document or portion of the document withheld. This index is required under Vaughn v. Rosen (I), 484 F.2d 820 (D.C. Cir. 1973), cert. denied, 415 U.S. 977 (1974).

We agree to pay any reasonable fees associated with processing this request.

We will expect your response within 20 working days of this request.

Sincerely,

Sandra L. Shepherd for
Billie Pinner Garde
