Subject: CN 140893
License No. 37-07161-01 Renewal Package

03003085

Dear Ms. Xu:

In accordance with our telephone conversation this afternoon, I wish to confirm and clarify 3 points in our license renewal package dated July 31, 2007, and our letter dated November 23, 2007 in reply to your request for additional information in a letter dated November 6, 2007.

1. We have modified our instructions to outpatients for the GriaSite® RTS to add an instruction that the patient immediately report any changes they feel or experience (i.e., pressure change at the catheter site) during their therapy.
2. We have an established system in place to remind patients of their appointments. We will ensure that these special cases of out-patient GriaSite® radiation therapies will also receive a reminder call prior to the day of their scheduled appointment to remove the radioactive material at the end of their prescribed treatment period.
3. We have attached a copy of a letter from Mr Joe Graves, the Radiation Safety Officer of University of Iowa, who confirmed and verified that Dr. Mark Smith is an authorized user of radioactive materials included in 35.300 (radiopharmaceutical therapy) to support Dr. Reena Pramanik's request for radiopharmaceutical therapy authorized user status. Dr. Mark Smith is the preceptor who signed Dr. Pramanik's document entitled "American Osteopathic Board of Radiology Preceptor Forms" which was submitted with our original license renewal package.

If you have any further questions, please call me at (717) 851-5166.

Sincerely,

Jean A. Gresick-Schugsta, M.S., D.A.B.R.
Chief Physicist-Diagnostic
Imaging/Radiation Safety Officer

Jean Gresick-Schugsta, RSO
Radiation Safety Office
York Hospital
York, PA

This letter is to verify that the physicians listed below are currently approved as Authorized Users by the University of Iowa's Radiation Safety Committee under the provisions of the University of Iowa's broadscope radioactive materials license number 0037-1-52-AAB (expiration date April 27, 2008).

The following Authorized Users meet the required training and experience requirements and have privileges for: imaging and localization studies, external beam therapy, high dose rate remote afterloader, teletherapy, brachytherapy, and radiopharmaceutical therapy.

Geraldine M. Jacobson, M.D.
Mark C. Smith, M.D.

If you have any questions, please contact me at 319-335-8517.

Sincerely,

A handwritten signature in cursive script, appearing to read "Joe M. Graves".

Joe M. Graves
Radiation Safety Officer
