ALL AGREEMENT STATES, NEW JERSEY, PENNSYLVANIA, VIRGINIA

NUCLEAR MATERIAL EVENTS DATABASE (NMED): UPDATED MICROSOFT ACCESS DATA ENTRY SOFTWARE PROGRAM (Version 6.0) (FSME-08-001)

Purpose: To inform you of the release of a new version of the Nuclear Material Events Database (NMED) local software.

Background: The U.S. Nuclear Regulatory Commission (NRC) has released a new version of the NMED local software. This software is provided to the States as a tool for collecting event data from within the State and transmitting that data to NRC. The software is provided free of charge to all States who are interested in using it. Assistance is also offered in the installation of the software.

NRC periodically updates the software to ensure compatibility with evolving IT technology, and to provide functionality to support current reporting practices. The current version is available on the NMED homepage, under the Download tab (https://nmed.inl.gov/). Directions for downloading are available on the website.

Email notifications will be sent to the previously identified NMED project manager/State contact (see enclosure). If we do not have a specific NMED contact, the email notifications will be sent to the Program Director.

Thank you for your attention to this matter. If you have any questions regarding this correspondence, please contact the individual named below.
