

January 9, 2008

APPLICANT: Dominion Virginia Power (Dominion)

FACILITY: North Anna Unit 3

SUBJECT: SUMMARY OF DECEMBER 13 AND 14, 2007 MEETING REGARDING THE
NORTH ANNA COMBINED LICENSE APPLICATION

On December 13 and 14, 2007, the U.S. Nuclear Regulatory Commission (NRC) staff held a Category 2 public meeting at NRC Headquarters, 11545 Rockville Pike, Rockville, Maryland, with representatives of Dominion Virginia Power (Dominion). The purpose of the meeting was to address the technical content of the recently-tendered North Anna Unit 3 combined license (COL) application. The meeting agenda is provided as Enclosure 1 and attendees are identified in Enclosure 2.

This meeting summary and the associated meeting notice are available through the Agencywide Documents Access and Management System (ADAMS) as a package at Accession Number ML073650014. ADAMS is the system that provides text and image files of NRC's public documents. Documents are available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. If you do not have access to ADAMS or have problems accessing the documents located in ADAMS, contact the NRC Public Document Room (PDR) staff at 1-800-397-4209, 301-415-4737, or pdr@nrc.gov.

This two-day public meeting was follow-up to the meeting held on November 29, 2007 at NRC Headquarters. The November 29, meeting (ML073551097) provided the initial opportunity for Dominion to familiarize the staff with the overall structure and format of the North Anna Unit 3 COL application. This follow-up meeting, scheduled two weeks after the COL application was made available to the staff, provided the opportunity for Dominion to discuss the technical content of the COL application and to address issues identified by the staff. The meeting focused on the content of the final safety analysis report (FSAR) and environmental report (ER).

The meeting consisted of technical presentations by Dominion representatives on most of the chapters of the FSAR and ER and interactive question/answer discussions with the staff on various technical issues. For each chapter or topical area, a separate session was conducted with participation by Dominion subject-matter experts and appropriate NRC staff. The focus of each session was to address technical questions and comments identified by the staff during the initial review of the application. Presentation materials consisted of excerpts from the FSAR and ER and materials used during the November 29, meeting.

At the meeting's conclusion, there was general agreement among the staff that the sessions had been informative and provided assistance for the staff's COL application acceptance review. Additional meetings may be held on specific COL application issues.

- 2 -

Members of the public attended this meeting and no public meeting feedback forms were received. Please direct any inquires to me at 301-415-0224 or tak@nrc.gov.
