Docket No. 52-012 and 52-013
Response to RAI 13.3-1

On December 14, 2007, the NRC e-mailed Request for Additional Information (RAI) 13.3-1 regarding documents cited in the State of Texas Emergency Management Plan. Attachment 1 to this letter provides the response to RAI 13.3-1 and Attachment 2 lists the commitment made in this letter.

If there are questions regarding this response, please contact Greg Gibson at (361) 972-4626.

A handwritten signature in black ink, appearing to read 'M. A. McBurnett', is written over a horizontal line.

M. A. McBurnett
Vice President,
Oversight/Regulatory Affairs

Response to RAI 13.3-1

Request 13.3-1

Please refer to the following narrative, and provide the missing information and/or clarification so FEMA can provide timely and effective support to the NRC with the technical review of emergency planning information:

Following the Acceptance Review, FEMA, as the reviewer of offsite emergency planning information, informed the NRC that in order to effectively support the start of Phase 1 of the offsite technical review, there is important information missing or needs further clarification, as follows:

Excerpts from ENCLOSURE to FEMA letter to NRC dated October 25, 2007 (Note: For items 1 through 26, the specific criteria referenced in parenthesis are from NUREG-0654, REP-1, Rev. 1, November 1980):

Texas: The following documents, as listed in TAB 5 to Annex D for the State of Texas, were not included in the COLA or require further clarification (specific criterion referenced in parenthesis). We will require this information to be submitted or corrected in order to support the review. It is our belief that several of the referenced items contained in the listing below are not actual emergency plans but are references to other documents, functions and/or personnel. It is recommended that the NUREG-0654 cross-reference submitted in the COLA be reviewed by the applicant for accuracy to ensure that the documents required by the cross-reference are submitted and are appropriate.
