Gentlemen:

We have received your letters of April 2, 1979 and April 30, 1979 which provided a response to our letter of March 9, 1979. In our letter TVA was cited with infraction 50-391/79-04-01 for failing to follow a reactor vessel internals installation procedure. Your letter of April 2, 1979, indicated that TVA did not agree that the events described constituted an infraction. Your letter of April 30, 1979 provided Westinghouse's review and evaluation of the infraction.

The information provided by your letters and Westinghouse's letter further affirms that the infraction occurred. No additional information was provided to change our finding. This was discussed by me with David Ormsby of your staff on May 11, 1979. It is our understanding that a supplemental response will be provided.

Therefore, in accordance with 10 CFR 2.201, please submit to this office, within 10 days of your receipt of this letter, a written statement or explanation in reply including: (1) Corrective steps which have been taken by you, and the results achieved; (2) Corrective steps which will be taken to avoid further noncompliance; and (3) The date when full compliance will be achieved.

Sincerely,

Handwritten signature of Charles E. Murphy in cursive.

Charles E. Murphy, Chief  
Reactor Construction and Engineering  
Support Branch
