Docket No(s). 03019665

Name of Licensee: Oliver Caminos, M.D.

Name of Participant(s): Mark Perna, Consultant for

Telephone No. 412-552-9259

Subject: RAI concerning Inspection 2007-001

(NOTE: This will be used as the
Documents Title in ADAMS)**Summary:**

During the inspection of License No. 37-21012-01 the NMT produced what he believed to be adequate shipping papers for the transport of RAM from their base hot lab to their client sites. The inspector was unsure whether the documents being used contained all of the required information. After further review of the "shipping papers", it was determined that they did not contain all of the required information. I contacted M. Perna to discuss the shipping papers and he stated that he was not aware that they were not using complete shipping papers and would look in to the situation immediately.

M. Perna called me back and stated that he would have a standard Bill of Lading form developed and sent to Oliver Caminos, M.D. for use starting on Friday, January 4, 2007.

In addition, the inspector noted that the licensee did not have the client letters required by 10 CFR 35.80(a)(1) for all of their client sites. Specifically, they had letters from three of their current 14 clients. M. Perna stated that they have all but three of the client letters in place as of 1/3/08 and those letters have been sent to the clients and Dr. Caminos is waiting for them to be returned.
