Subject: Archaeological Report: Vogtle Electric Generating Plant

Dear J. P. Leous,

The Seminole Tribe of Florida Tribal Historic Preservation Office (STOF-THPO) has reviewed the Cultural Resource survey for Vogtle Electric Generating Plant. STOF-THPO concurs with the recommendations set forth in this report. Specifically, we concur that Site 9BK416 should be avoided and that construction for the intake structure should be located on the top of the bluff. In addition, we appreciate the construction of the fence around the site as well. Also, we would like to note that the likelihood for sites in elevated regions increase exponentially. As such, the STOF-THPO would like to be informed should any archaeological and/or historical resources are discovered during construction of this structure.

In addition, the STOF-THPO concurs with the recommendation to avoid Sites 9BK419, 9BK420, 9BK423. We thank you for the opportunity to review this document. STOF-THPO looks forward to continuing to work with you at this project site. In any future correspondence regarding this issue please reference **THPO-000830**.

Sincerely,

FOR: Willard Steele, Tribal Historic Preservation Officer
