

JAN 15 1958

Marvin M. Mann, Assistant Director
Division of Inspection, Washington

Robert W. Kirkman, Director
Inspection Division, NYO

FEDERAL BUREAU OF INVESTIGATION - 10 CFR 40

RE: INSPECTION

Transmitted herewith is the following inspection report involving
"technical non-compliance":

The Martin Company
Baltimore 3, Maryland

License Nos. C-3508
C-3147
C-3572

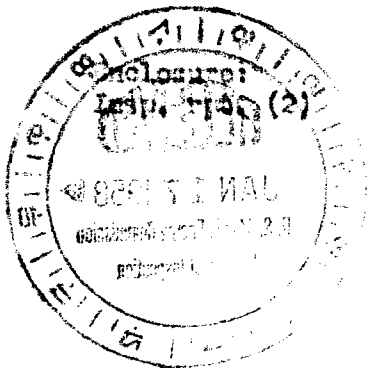

No items of non-compliance were found for C-3508 and C-3572.

For license C-3147, the licensee was found in non-compliance with
the following item, which he agreed to correct.

29.203(f)(2) "Caution signs, labels and signals": failure of
licensee to label with proper sig. and symbol 6.6 lbs. con-
tainer of uranium oxide.

We feel that essentially no hazard exists with the licensee's
failure to label containers.

We recommend that a letter be sent to the licensee requiring him
to label containers.
