Attention: Mr. Ross G. Macaulay
Licensing Officer, Nuclear Division

Gentlemen:

This is in reply to your letter of December 1, 1958 regarding the procedures you have established in the handling and processing of alloys of magnesium-thorium containing 4% or less thorium.

Your proposed procedures as you have outlined them appear to be satisfactory from a radiation safety standpoint under existing AEC requirements for the handling of 4% thorium-magnesium alloy.

Very truly yours,

J. C. Delaney
Chief, Nuclear Materials Section
Licensing Branch
Division of Licensing & Regulation
