

UNITED STATES GOVERNMENT

Memorandum

TO Lyall Johnson, Chief
Licensing Branch

FROM Charles D. Luke *CDL*
Hazards Evaluation Branch

SUBJECT MARTIN CO.

DATE: March 16, 1960

Re: February 9, 1960 application

The subject application included a revised manual. It is, of course, time consuming to review such a manual, when only a few changes from previously approved procedures are involved.

I talked with Mr. Fred Perella of Martin Co. here at Headquarters last week, and Mr. Lane and I spoke with Mr. Wm. Wachtel of Martin Co. by telephone today. Mr. Wachtel agreed to submit a list of specific changes from the previously approved procedures.

We will review these when received. No further action on Docket 70-58 is necessary at this time, and it is returned herewith.
