 Control No. 316626

Dear Bill,

Per your request please find enclosed a map of the areas where close out surveys and wipes were performed. The camera room wipes and surveys included rooms W-215, W214, W213, W212, and B. All camera rooms were wiped with a single wipe in the central floor area and floor of the doorway.

The treadmill wipe and survey area included rooms W-209 and W-218. Room W-218 was wiped and surveyed in each treadmill area (4) and the floor in the entryway to the corridor was also surveyed and wiped. Room W-218 was wiped and surveyed in the central floor area and doorway floor area.

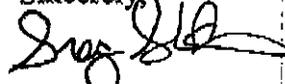

The injection room wipes and surveys were performed in room W-211 and a small room at the end of the corridor (Labeled Inject. Room on this map) with a single wipe. Central floor and entryway floor areas were wiped and surveyed.

The Hot lab was wiped with a single wipe. Areas wiped and surveyed were countertop, central floor, and entryway floor.

Room W-210 on this map was the physician reading area.

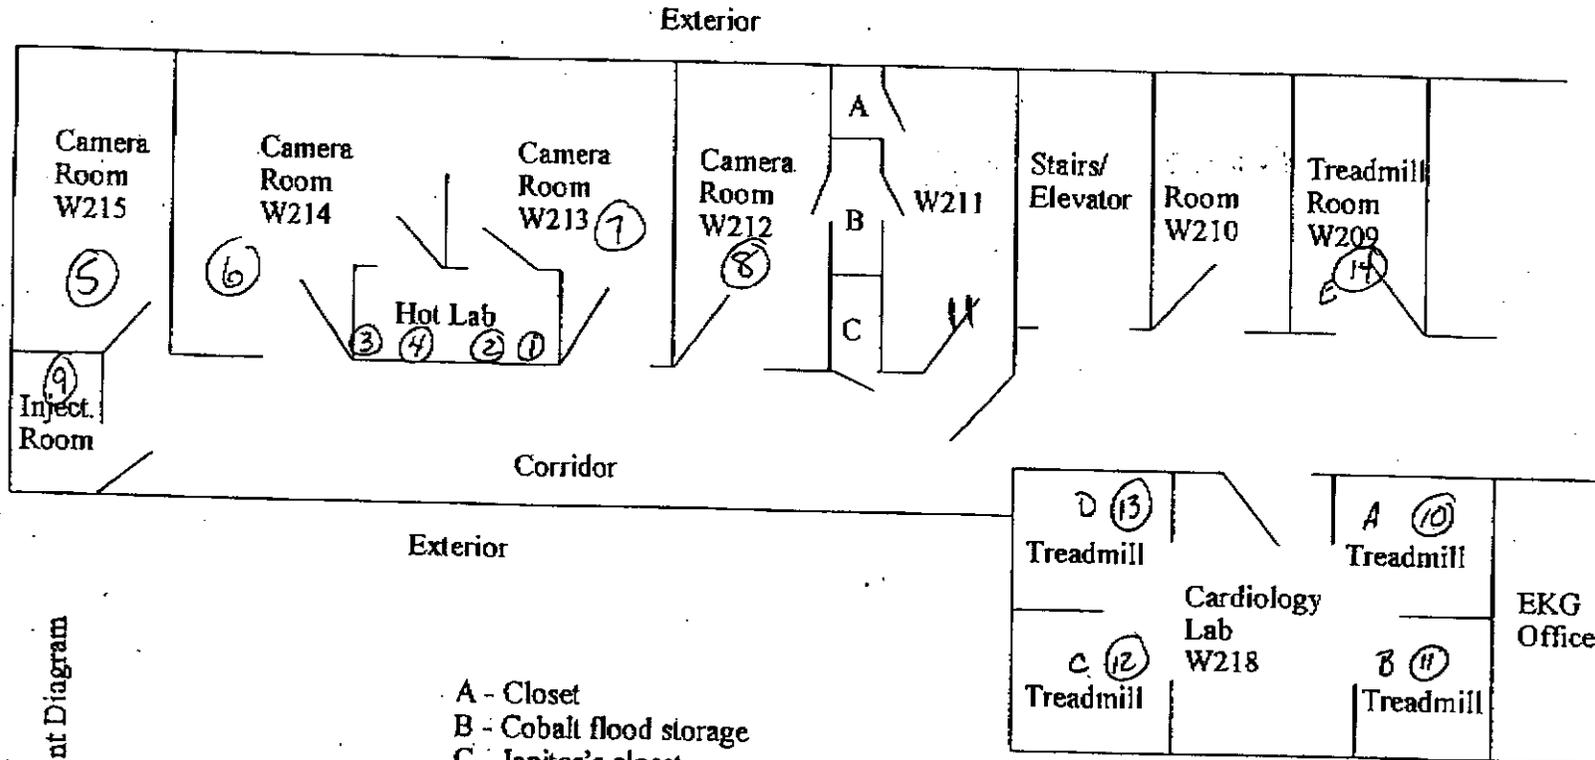

If you should need any further information, please don't hesitate to call me at (517) 334-2801.

Sincerely,

 CNMT, NCT
