amend # 6

REFER TO:
RHB:W-729

United States Atomic Energy Commission
Division of Licensing and Regulation
Washington 25, D. C.

Attention: Mr. James R. Mason, Chief
Isotopes Branch

Gentlemen:

It is requested that By-Product Material License No. 19-1398-19 be amended to permit the use of by-product material for radiography operations at the PM-1 Reactor which is being constructed near Sundance, Wyoming. The following sources are to be used:

- A. Iridium 192
- B. Cobalt 60

The sources are to be shipped according to I.C.C. Regulations from the Middle River Plant to the point of commercial delivery nearest the Reactor Site and transported by the user from the point of nearest delivery to the construction site.

Should you require any further information, please contact me or Mr. Richard H. Boutelle at Wurdock 7-3800, extension 9517 or 9518.

Very truly yours,

THE MARTIN COMPANY
