Refer to: LSN-3

Director  
Division of Licensing & Regulations  
U.S. Atomic Energy Commission  
Washington 25, D. C.

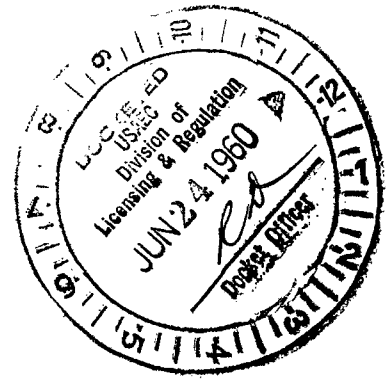

Attention: Lyall Johnson  
Chief, Licensing Branch

Gentlemen:

Reference is made to our Special Nuclear Material License SNM-53 as amended. On January 26, 1959, you sent a letter to the Martin Company amending our License by adding the following item:

"Item 10: Unless otherwise specified, the authorized place of use is the address stated in Item 2 above. Authorized place of use, the licensee's plant at Middle River, Maryland. As a further condition of this license, the licensee shall, within 120 days of the date of this letter, comply with the provisions of his application filed with the Commission December 16, 1958 regarding the plans for compliance with Section 70.24 10 CFR 70, and shall advise the Commission in writing when the installation of the radiation monitoring system is complete".

We complied with the request as called for in the above item in February, 1959, but inadvertently did not notify you of our compliance. We regret the delay and request that you accept our notification of compliance at this time.

Very truly yours,

THE MARTIN COMPANY
