

January 23, 2008

LICENSEE: Nuclear Management Company

FACILITIES: Monticello Nuclear Generating Plant
Prairie Island Nuclear Generating Plant, Units 1 and 2

SUBJECT: SUMMARY OF THE JANUARY 9, 2008, MEETING WITH NUCLEAR
MANAGEMENT COMPANY TO DISCUSS THE PROPOSED COMBINED
EMERGENCY PLAN (TAC NOS. MD6294, MD6295, AND MD6296)

On January 9, 2008, the Nuclear Regulatory Commission (NRC) staff held a Category 1 public meeting with representatives of Nuclear Management Company (NMC) at NRC offices located at 11555 Rockville Pike, Rockville, Maryland. The licensee requested this meeting to discuss with the NRC staff the appropriate, efficient, and timely licensing process within the existing regulatory framework for review and approval of the proposed combined emergency plan (see NMC letter to the NRC, dated August 7, 2007; Agencywide Document Access and Management System (ADAMS) Accession No. ML072200142). A list of attendees is provided as Enclosure 1.

The licensee's handout material has been docketed and is publicly available at ADAMS Accession No. ML080090524. Licensee personnel followed the handout in their presentation of the issues.

After a caucus, the NRC staff informed NMC that it will review NMC's August 7, 2007, submittal as one that involves a "decrease in effectiveness." A provision of 10 CFR 50.54(q) states, in part, "[p]roposed changes that decrease the effectiveness of the approved emergency plans may not be implemented without application to and approval by the Commission." Accordingly, the NRC staff will issue a Request for Additional Information when it can specifically identify its need for additional information. The NRC staff indicated that a review of this type cannot be accommodated within the schedule (i.e., complete by August 7, 2008) proposed by NMC. NMC personnel indicated, without giving specifics, that the NRC review can go beyond August 7, 2008, without a significant impact on the activities for Monticello and Prairie Island.

The NRC staff and NMC personnel agreed to work closely to develop the review schedule, and to hold additional future meetings as the need arises to discuss specific issues.

- 2 -

Before the meeting adjourned, members of the public were given the opportunity to communicate with the NRC staff both verbally and through the use of public meeting feedback forms. No comment or feedback was received at this time.

Please direct any inquiries to the undersigned at 301-415-1451, or pst@nrc.gov.
