PERSON C. Keller

SUMMARY OF CALL:

Requested info on the status of their application dated Feb 14, 1964 to ship air filters containing 22 kg U-235.

Also, since the large air filters will not fit into 110 gal drums, Mr. Keller asked us to consider packaging these filters (each containing < 300 gms U-235) in ICC approved wooden boxes.

Mr. Keller informed me that the container for the large filters will be made of steel. H. J. L.
