Subject: XCOM1197 Assurances from China

Tonya,

NMSS has no nonproliferation concerns with approval of specific license (XCOM1197) to export Graphitar Rings for the radial bearing and casing/main gasket and No. 1 seal housing gasket to Nuclear Power Quinshan, Joint Venture Company, Ltd. in China for ultimate use in the Qinshan Phase II Nuclear Power Plant Extension Project Units 3 and 4.

This was forwarded to me by Bruce Moran. By the order of the emails, it appears the NMSS response should be directed to you. If it needs to be sent to someone different, please forward the information or let me know who is the proper contact and I will resend the email.

Thank you,

Tom Grice
