Re: License No. 29-13746-02 and License 29-10245-02

This letter is a notification that we would like Dr. Richard Claps to begin high dose iodine treatment for thyroid cancer (oral NaI-131 in quantities greater than 1.22 gigabecquerels (33 millicuries) at both our Denville and Dover campuses. He has demonstrated competency in the treatment of hyperthyroid patients at our two institutions and a sincere interest in treating thyroid cancer patients. I have been his preceptor for high dose treatment with iodine. He has treated 5 patients under my supervision. We have a growing nuclear medicine therapy practice and need help covering the nuclear medicine clinic.

If you need any further information please let me know. Please send correspondence to the following address:

Dr. Jeffrey J Plutchok
11 Stoneridge Court
Rockaway, NJ 07866

Sincerely

Dr. Jeffrey J Plutchok
