RE: Material License Number 24-25817-01

*Correction to amendment letter dated January 2nd, 2008.

Dear Mr. Reichhold:

We are in the process constructing a new Bio-Diesel plant at the Cargill Soybean Process facility in Kansas City, MO. We will be purchasing a new source from Thermo Fisher Scientific for continuous level measurement for one new piece of process equipment. I am requesting to amend the above referenced license to add a new source (see section A below).

I am also requesting to amend the above referenced license to change the RSO to Ralph Volk (see section B below).

A. Add a new source:

6B. Cesium-137

7B. Sealed Source (Thermo Fisher model designation # 696894)

8B. 50 millicuries source.

9B. To be used in Thermo Fisher Model # 5205 source holder for continuous level measurement.

10B. Licensed Material shall also be used at licensee's facility located at 2111 Nicholson Ave, Kansas City, MO

(Please see the attached SDR for the new source)

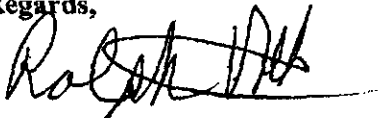

B. Change RSO:

11. The RSO for this license is Ralph Volk. Please see the attached training certificate, test and previous RSO for Nebraska license.

*12. Licensed material shall be used by, or under the supervision of the RSO or individuals who have received training described in appendix G of NUREG-1556, Volume 4, dated October 1998 and have been approved in writing by the training instructor.

If you have any further questions please contact me at 816-245-0537.

Regards,

Ralph Volk
