Division of Risk Assessment  
Office of Nuclear Reactor Regulation

SUBJECT: SUMMARY OF DECEMBER 20, 2007, CATEGORY 2 MEETING ON  
FREQUENTLY ASKED QUESTION PROCESS REGARDING NATIONAL  
FIRE PROTECTION ASSOCIATION STANDARD 805

On December 20, 2007, the U.S. Nuclear Regulatory Commission (NRC) staff held a meeting, via teleconferencing, with stakeholders and the public to discuss Frequently Asked Questions (FAQs) at plants that are adopting National Fire Protection Association Standard 805. Licensees introduced and discussed revised versions of two FAQs (06-0008 and 06-0025). The NRC staff presented written comments on two FAQs (06-0025 and 07-0035). Licensees provided a written response to NRC staff comments regarding one FAQ (06-0025). Licensees and NRC staff also discussed the remaining open FAQs. The participants determined that both industry stakeholders and the NRC staff needed to continue to work on the remaining open FAQs.

All participants agreed that the next monthly meeting should occur, at Nuclear Energy Institute Headquarters, on January 24, 2008.

The revised FAQs, NRC comments, and the licensee response introduced at the meeting are available in the Agencywide Documents Access and Management System. The accession numbers for the revised FAQs are ML073370025, ML073510082, and 073550021. The accession numbers for the staff comments are ML073510074 and ML073540262. The accession number for the response to NRC comments is ML073550017. Three other handouts are available at ML073531823, ML073531828, and ML073540272.

A list of meeting attendees is enclosed with this memorandum.
