Attention: Mr. C. W. Keller  
Nuclear Accountability and  
Licensing Representative

Gentlemen:

Pursuant to 10 CFR 70 Special Nuclear Material License No. SNM-53, as amended, is hereby further amended to authorize storage of unirradiated MH-1A fuel elements in Test Cell No. 1 of the Martin Critical Facility in accordance with procedures described in the licensee's application dated March 3, 1965. This amendment does not authorize the storage of irradiated fuel elements or the insertion of special nuclear material into any nuclear reactor.

The licensee is exempt from compliance with Section 70.24, 10 CFR 70, insofar as this section applies to activities authorized under this license amendment.

The portion of your application regarding storage of elements after use in critical experiments is under consideration. We will contact you later regarding it.
