Attention: Mr. C. W. Keller
Nuclear Accountability and
Licensing Representative

Gentlemen:

This refers to your letter dated April 15, 1965, requesting approval to store MI-1A fuel elements after use in critical experiments.

Since the storage of elements used in connection with a critical facility should be covered by the facility license, your application has been referred to the Division of Reactor Licensing for appropriate action. You will hear from them directly in regard to this matter.

Very truly yours,

Donald A. Nussbaumer, Chief
Source & Special Nuclear Materials Br.
Division of Materials Licensing
