Attention: Mr. C. W. Kellor
Nuclear Accountability and
Licensing Representative

Gentlemen:

Pursuant to 10 CFR 70, Special Nuclear Material License No. SNM-53, as amended, is hereby further amended to authorize storage in the following locations of MII-1A fuel elements after use in critical experiments: (a) Test Cell No. 1 of the Martin Critical Facility in accordance with procedures described in the licensee's application dated March 3, 1965 and supplement dated April 15, 1965 and (b) the licensee's fuel storage area in D building in accordance with procedures described in the licensee's application dated August 4, 1964 and supplement dated April 15, 1965.

With regard to the storage of fuel elements in Test Cell No. 1, the licensee is exempt from compliance with section 70.24, 10 CFR 70, insofar as this section applies to activities authorized under this license amendment.

This amendment shall expire at such time that authority to store irradiated fuel elements is granted under Facility License CX-7.
