SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

By letter dated October 18, 2007, Mr. William Winkler, Executive Vice President for Shaw Environmental & Infrastructure, Inc. informed the U.S. Nuclear Regulatory Commission (NRC) that the company wished to terminate their NRC radioactive materials license. NRC Form 314 dated October 22, 2007, stated that all radioactive material had been transferred to the Department of the Navy, Radioactive Materials Permit No. 04-00681-B1NP, issued under the Navy's Master Materials License. However, since your NRC radioactive materials license was authorized for temporary job-sites only, there are no buildings or facilities associated with your license termination. Therefore, there is no further remediation or actions with respect to NRC regulated materials required.

Please find enclosed Amendment No. 03 to License No. 05-29228-01, authorizing your license termination. An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14)(xii).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have questions or require clarification on any of the information stated above, please contact me at 817-276-6552

Sincerely,

/RA/

Rachel S. Browder, Health Physicist
Nuclear Materials Safety, Branch B
