

Cold Licensing Plan

Cold Licensing Plan

▶ Ted Amundson

▶ Purpose

Cold licensing of operators at a new plant is a temporary process prior to commercial operation of a new nuclear power plant.

▶ Experience Guidelines

A set of guidelines largely based on past experience and acknowledging the improvements made in training and qualifications

Cold Licensing Plan

- ▶ **Greg Sparks**

- ▶ **Table 1**

- A summary of current guidance that cannot be met and a recommended alternative

- ▶ **Table 2**

- Combination of eligibility and training for each type of license candidate

Cold Licensing Plan

- ▶ **Hamer Carter**

- ▶ **Table 3**

- Used for calculating equivalent nuclear experience for a crew

- ▶ **Table 4**

- Example of how the experience of each crew member contributes to the 6 and 13 year minimum crew experience criteria

- ▶ **Table 5**

- Hot plant experience requirements
