Special Nuclear Material License No. 53

Reference: Martin Letter from C. W. Keller to
K. E. Lauterbach (ACC-445 dated 12/1/65)

Gentlemen:

Please replace the referenced submission with the attached proposed Section VI, Part B, of SNM-53 which details our revised method for shipment of MH-1A fuel elements between the Martin facilities at Middle Rover, Maryland and Fort Belvoir, Virginia.

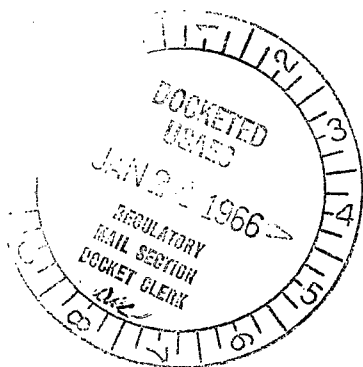

Since in our discussion with you it was indicated that our revised method will fully comply with AEC requirements, we will appreciate receiving an amendment to SNM-53 by February 4, 1966. Thank you for your effort in meeting this goal.

Very truly yours,
