Attention: Mr. Donald A. Nussbaumer, Chief,
Source and Special Nuclear Materials Branch

Subject: Allocation of Special Nuclear Material for Government Fiscal Year 1967

Gentlemen:

The Martin-Marietta Corporation requests an allocation of 40 kilograms U-235 to be contained in all enrichments of special nuclear material. We forecast our requirements to be primarily in the highly enriched uranium range and anticipate a requirement of approximately 10 kgs U-235 per quarter. We request, however, that any unused quarterly allocation be authorized for withdrawal in subsequent quarters. The uranium will be used for research, development, and minor fabrication activity at our Middle River, Maryland facilities in compliance with the Martin Special Nuclear Material License No. 53.

Very truly yours,

MARTIN-MARIETTA CORPORATION
MARTIN COMPANY, Baltimore Div.
