| Subject: (NOTE: This will be used as the Documents Title in ADAMS) | Reason for delay. | |
| Summary: | <p>Ms Adams contacted me to explain why there was a delay in providing the materials necessary to terminate the license. Dr. Bertocci, the previous Radiation Safety Officer, was offered a position that required that he leave the University with little notice. Also, there was a complete turnover in administrative staff up to and including the president of the university. Only one secretary remained behind to inform the successors concerning where and what records were kept to start the process. However, due to a heavy teaching load for the past semester, work on the decommissioning process could not be started prior to now. I directed Ms. Adams to NUREG-1757, Vol. 2, App. B as a simplified version of MARSSIMM that might be useful. Also, if she had any questions, then she could contact me or another person in my division for information. I also requested that she draft a letter after reading the information and state what type of time frame she would have in providing the information.</p> | |
