

UNITED STATES GOVERNMENT

Memorandum

TO : Files

DATE: October 3, 1966

FROM : *Thomas G. McCreless*
Thomas G. McCreless
Criticality Branch, DML

SUBJECT: MARTIN COMPANY, DOCKET NO. 70-58, TELECON OF SEPTEMBER 30, 1966

DML:CB:TGM

Ken Lauterbach and I placed a telephone call to Charles Keller of Martin Company in order that we might discuss their application of September 26, 1966, for the fabrication of uranium oxide-metal hydride fuel assemblies.

With regard to the reference to pages IV-B-1A and B, we told Keller that our records do not indicate that we have received these pages. In addition we requested a description of the storage procedures for completed assemblies. Mr. Keller informed us that he would correct the reference and provide the additional information during the first week of October.
