License No. 53

Gentlemen:

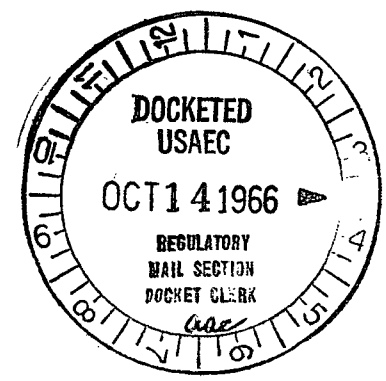

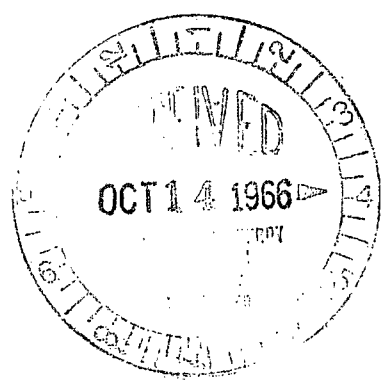

Attached are revised copies of page IV-A-5 and Figures I-B2, IV-A5, and V-E2 which define a new location for the nuclear storage area at the Martin-Marietta Corporation facilities at Middle River, Maryland. There are no changes in special nuclear material control or nuclear safety aspects and you may consider this action simply as an updating of SNM-53. Facilities are presently being modified and we plan to occupy the new storage location about November 1, 1966.

Very truly yours,

Martin Company
