Stephen Bloom, M.D.  
Radiation Safety Officer  
Midwest Cardiology Associates, P.C.  
19950 East 39<sup>th</sup> Street, Suite 210  
Independence, MO 64057

Dear Dr. Bloom:

Thank you for your response by facsimile dated January 9, 2008, requesting the correction needed to your recently issued new license, License Number 24-32674-01, dated October 10, 2007. As discussed with you by telephone on January 9, 2008, the error involved designation of an Alternate Radiation Safety Officer, which is contrary to current NRC regulation, as specified in 10 CFR 35.24(b), which specifies that a single individual (the designated Radiation Safety Officer) is to be responsible for implementing the licensee's radiation protection program. As requested, the position of Alternate Radiation Safety Officer has been deleted from License Number 24-32674-01 by deletion of former License Condition 11. B. which named an Alternate Radiation Safety Officer. Enclosed is a corrected copy of your NRC license reflecting the change. We apologize for any inconvenience this oversight may have caused you.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>. A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

  
Loren J. Hueter  
Materials Licensing Branch
