Attention: Mr. Peter Vogelberger  
Vice President and General Manager

Gentlemen:

On January 13, 1969, our District I Safeguards Office conducted a safeguards inspection of the special nuclear material possessed pursuant to AEC License No. SNM-53.

As a result of the inspection, the inspection team discussed with you the need for establishing a more formal records system and procedures showing the receipt, inventory (including location), disposal, acquisition, import, export and transfer of all special nuclear material in your possession, regardless of its origin or method of acquisition.

The above matter was brought to the attention of Mr. Peter J. Knapp of your company during the inspection by the District I safeguards inspection team.

Please inform us of the action that you have taken or propose to take with respect to these matters.
