SUBJECT: RECEIPT OF APPLICATION FOR AMENDMENT OF CERTIFICATE OF  
COMPLIANCE NO. 9788 FOR THE S4G REACTOR COMPARTMENT

Dear Mr. Angerhofer:

By letter dated September 19, 2007, you submitted an application for amendment of Certificate of Compliance No. 9788 to add the S4G reactor compartment as an authorized transportation package.

This letter acknowledges receipt of your application. The application appears to contain the necessary information to begin our technical review. We have established a schedule for this review. The schedule allows for the staff to issue a possible request for additional information (RAI) in May 2008. If no RAI is needed, and based on the staff's evaluation, the approval may be issued at approximately that time. In general, no additional changes to the application should be submitted except for those minor changes that result in responding to an RAI. Please note that review of the S5G, and the request for the "-96" designation for the S5G, S5W and SSN 688 Class Reactor Compartment Packages will be scheduled upon receipt of the complete application.

If you have any questions regarding this matter, please contact me at (301) 492-3326.

Sincerely,
