# Martin Co. Containers

Fig. 3 Assume weight of content — 60 #

Effect of 30' drop

Side Drop — 10% loss of spacing — O.K.

Drop on Top — Pipe pushed thru 1 5/8"

Fig. 2

Effect of 30' drop — excessive both on side and top, unless extra bracing, or something is done to strengthen it; at least 30% loss of spacing <sup>(side drop)</sup> etc. expected.

A/265
