Mr. Donald A. Nussbaumer
Assistant Director for State
Agreement Programs
Office of State Programs
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Nussbaumer:

This is in reply to your letter of July 15, 1981 regarding formerly licensed sites in Maryland. We responded to your letter of August 7, 1980 on July 8, 1981. A copy of my letter to Wayne Kerr of that date is enclosed.

Since we wrote to you, we have obtained some additional information. In talking to a former Martin-Marietta employee recently it was learned that "D" Building where this work was done has been torn down and replaced by a plot of grass. He stated that the site was decontaminated to acceptable levels at the time the building was demolished to meet the requirements prescribed by the NRC.

You may wish to contact a company called Chesapeake Park, Inc., Martin Boulevard and Eastern Boulevard, Baltimore, Maryland 21220, telephone 301/686-4532. It is believed that Chesapeake Park, Inc. would have records on this facility since they were involved in the rental of some of the old Martin facilities.

Sincerely,

A handwritten signature in cursive script that reads "Robert E. Corcoran".
