Serial No. COL-0168  
RC Project No.741, 744, & 745

**DOMINION (NORTH ANNA), NUSTART (GRAND GULF), AND ENTERGY (RIVER BEND) COL APPLICATION PROJECTS – NRC PROJECT NOS. 741, 744, & 745 IDENTIFICATION OF ESBWR R-COL APPLICANT**

In May 2007, Dominion, NuStart, and Entergy provided responses to U.S. Nuclear Regulatory Commission (NRC) Regulatory Issue Summary 2007-08, "Updated Licensing Submittal Information to Support the Design-Centered Licensing Review Approach." Our responses stated that the ESBWR Design Centered Working Group (DCWG) would identify the Reference Combined License (R-COL) applicant and inform the NRC approximately 90 days prior to the submittal of the ESBWR applications.

This letter is being submitted on behalf of the ESBWR DCWG to inform you that the DCWG has selected North Anna as the R-COL applicant for the ESBWR design. The North Anna R-COL Application will be submitted in November 2007.

The ESBWR DCWG members will continue to work together using the joint process that was developed to provide effective control and consistency in the standardized COL application material.

Please contact Ms. Gina Borsh at (804) 273-2247 ([regina.borsh@dom.com](mailto:regina.borsh@dom.com)) if you have any questions.

Very truly yours,

A handwritten signature in black ink, appearing to read "Eugene S. Grecheck".

Eugene S. Grecheck  
Vice President-Nuclear Support Services
