Subject: First Quarter Sampling

Paul,

United Nuclear Corporation was unable to begin the first week of quarterly sampling on Jan. 7, 2008, due to an intense snow storm, which dropped approximately 9" on the site. Weather, such as this, adversely affects our equipment and instruments. The timing of the water samples is also critical and must be accomplished by Wednesday of the sampling week, due to receiving requirements at the laboratory, therefore I postponed this event by one week.

Sampling for the first quarter has commence today, Monday January 14, 2008, and is scheduled to be completed by Wednesday January 23, 2008.

If you have an questions, please call me.

Respectfully,

Larry Bush
United Nuclear Corp.
