Mike, for the week we are in Matagorda County TX for the STP COL and public meeting, I need to be blocked out for the morning of Monday the 4th so I can deal with Need For Power. I also need to have some time to participate in the Alternative Sites discussion at the learning center to discuss the socio-economic aspects of the alternatives. You will probably want to sit in on that, too. Other than that, I am at your disposal as far as when we are at the learning center and when we are on a road show. I plan on leaving early Friday morning, but I can always change my flight times if needed.

Looking forward to working with you again.

Dan'l
