Paul,

I've now heard back from all of my agency contacts (which does not include the 2 agencies the hydrologist contacted). All six want to send at least one person to the audit and will possibly attend the scoping meeting. With this much interest, I think we must have a government only meeting during the week of the audit....preferably on Monday afternoon if we can do the boat tour first thing Monday morning following the general site tour. That would leave Tuesday and Wednesday to conduct the terrestrial tours and begin the detailed discussions on ecology and land use with the applicant.

Harriet
