Re: USNRC Materials License No: 13-32412-01

Dear Sir or Madam:

Please let this correspondence serve as notification for the following changes to our current USNRC materials license. I would like to remove Doctors Christopher Hollon and Nathan Millikan from our materials license as an authorized user as both physicians are no longer involved in USNRC licensed activities at Medical Consultants, P.C.

In addition, I would like to request that the statement "limited to cardiovascular clinical studies" be removed from our usage of isotopes under 35.100 and 35.200.

If any additional information is needed, please contact me at (765) 254-3857 at your convenience.

Sincerely,

Michele Hiatt, CNMT, ARRT(N)
Radiation Safety Officer
