Soil Volume Estimates – CD Containing Maps

Dear Jim,

I have enclosed a CD containing maps used in the soil volume estimates I emailed you earlier in the week. I don't know if these will be useful to Jackie or not, but I thought I would send them along anyway.

If you have any questions, don't hesitate to call Craig Harlin at (918) 489-5511, ext. 14.

Sincerely,

Craig Harlin  
Vice President
