

January 28, 2008

Mr. Alexander Marion, Executive Director
Nuclear Operations & Engineering
Nuclear Energy Institute
1776 I Street, NW, Suite 400
Washington, DC 20006-3708

SUBJECT: DRAFT REVISION OF DIGITAL INSTRUMENTATION AND CONTROL
PROJECT PLAN FOR REVIEW AND COMMENT

Dear Mr. Marion:

The purpose of this letter is to provide you with the draft revision of the U.S. Nuclear Regulatory Commission's (NRC's) Digital Instrumentation and Control (DI&C) Project Plan (Enclosure 1) for review and comment.

The DI&C Project Plan was initially issued on July 12, 2007 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML071900253). The initial draft revision of the project plan was presented at the December 7, 2007 public meeting of the NRC's DI&C Steering Committee. The Nuclear Energy Institute (NEI) provided comments to the initial draft revision on December 21, 2007 via e-mail.

Enclosure 2 provides the disposition of NEI's previous comments.

This draft revision of the project plan will be discussed at the next public meeting of the NRC's DI&C Steering Committee on February 01, 2008. The Steering Committee looks forward to receiving any comments you may have as it considers final changes to the draft. We expect to issue the project plan early in February.

If you have any questions, please contact me at 301-415-1274.

Sincerely,

/RA/

John A. Grobe, Associate Director
Engineering and Safety Systems
Office of Nuclear Reactor Regulation

Enclosures: As stated
