To Whom It May Concern,

*03034108*

This letter is to request LINDSEY MAYHEW to be listed as an authorized user on the Nuclear Materials License #29-30291-01. Ms. Mayhew is a technician on our staff and has adequate training and experience to safely and competently perform Nuclear Scintigraphy examinations on our patients. She holds a 4-year Bachelors Degree in Animal Science and has 4 months of direct supervised training in performing Nuclear Scintigraphy examinations, including patient preparation, handling of the Technetium 99m, and post-examination protocols (disposal of waste and contaminated materials, scanning areas, etc....). She is competent in safety concerns and regulations regarding the handling of radioactive material, and is comfortable to maintain occupational doses and doses to the public ALARA.

Please do not hesitate to contact me with any further questions or concerns.

Sincerely,

Brendan W. Furlong
