Subject: Confirmation of Identity

(NOTE: This will be used as the Documents Title in ADAMS)

Summary: Dr. Keenan called me and stated that he was informed that I needed additional information from him. I replied that I had the information that I needed for the license in a letter dated December 27, 2007, but that a face-to-face may still be required during the pre-licensing visit required of new licensees. Part of the visit is to determine the identities of individuals and whether licensed materials are to be used for the purposes intended. This could not be determined over the phone. Dr. Keenan stated that it would not be worthwhile for him to travel to the Trenton, NJ area in order to perform a five to ten minute interview. I replied that I understood his problem and would see if a license reviewer could fit a visit to his facility in Maryland on an inspection trip. Directions to Laurel Regional Hospital are as follows I-95 S to MD Rt 198 E (1 - 2 miles) right onto Van Dusen.
