I have completed a preliminary review of your application and have some questions as follows:

- 1) Please indicate the last day byproduct materials were used or handled at the 706 Forrest Street facility.
- 2) Please characterize the use areas. You have indicated that Upsate occupied approximately 12,000 square feet but the original application facility diagram said 18,000 square feet. You have provided survey data for only Room 110A and what appears to be Room 115. Clarify if these two areas were the only use areas.

You may reply by fax to 610 337-5269 and refer to NRC License 45-25402-01.

Thank you.
