Status of Recommendations

Recommendation 3: Update and finalize the training policies and procedures.

EDO Response

Dated

July 16, 2007:

We are on schedule to complete the activities to address these recommendations [recommendations 3-7 and 9-11 as discussed in the subject audit response from Luis A. Reyes to you dated February 7, 2007. As noted in that response, our schedule for addressing the report recommendations reflects their relative lower priority when contrasted with the need to conduct more training courses and development programs due to significant hiring and qualifying new staff to support the increased training load, and developing new reactor training courses.

In accordance with our procedure update schedule, the following procedures have been updated:

HRTD OP 201 TTC Security Plan/Occupant Emergency Plan
HRTD OP 304 Simulator Configuration Control
HRTD OP 406 Training Program Development Process
HRTD OP 501 Staff Qualification Program

HRTD OP 501 Staff Qualification Program includes guidance for continuing training for instructors which addresses OIG recommendations 6 and 7. Please refer to Section E.3 Continuing Training on page 5.

The interim guidance that will be used for the procedures that are scheduled to be updated beyond January 2008, is listed in the table on the following page:

OIG Analysis: In a previous OIG response dated March 15, 2007, OIG requested that the agency provide interim guidance that would address the intent of the recommendation, since the agency did not plan to implement corrective actions within the time frame prescribed by the IG Act of 1978.
