

NRC Emergency Preparedness and Response Update

Anthony McMurtray
**Chief, Regulatory Improvements and
Communications Branch**
Division of Preparedness and Response
Office of Nuclear Security and Incident Response

Rulemaking Project

- Strengthen and clarify EP Regulations
 - Good coordination with FEMA
 - Seeking input in many forums
 - Public Meeting March 5th for stakeholder input
-

PAR Study Update

- Technical review published (NUREG-CR6953)
- Possible changes to NUREG-0654, Supp. 3
- Telephone survey of the public who live in EPZs awaiting approval by OMB
 - Expected to start in Spring 2008
 - Talking points coming to States and Locals to share with their decisionmakers
 - Hope to have feedback by NREP 2008

Hostile Action-Based EP Drill and Exercises

- Phase III in full swing
 - 9 Completed so far nationwide
 - 10 scheduled in R-IV for 2008
 - Public Meeting-Nov 9, 2007
 - Well attended; lots of input
 - FEMA Alignment
 - FEMA/NRC Exercise task force
 - Working plan for incorporating changes to guidance.
-

New Reactors

- Currently expecting 21 applications for 32 units
 - Certification process for new designs
 - Updates to 10CFR 52 and Part 50
-

EP Licensing Issues Under Review

- EAL Over-conservatism
 - Recent event with potential tampering could have led to Site Area Emergency
 - Bases documents for EALs
 - Are they incorporated, trained on, and understood by operators and security?
 - 10CFR50.54(q)
-

Other Activities

- Response events
 - Natural Disasters
 - SONGS Wildfire assistance

 - SOARCA
-
