 Ron:

1. Re. historic/cultural sites on the mine property, there has been no change in sites status since the 1998 license renewal. Site 48CA533, which used to be specifically referenced in condition 9.9 of the license, has been surrounded for a number of years by an exclusion fence to assure no activity/disturbance within the bounds of that site. Future isl development plans in the general area will not affect that site.

2. I spoke with our wildlife consultant, Thunderbird-Jones & Stokes, Gillette, WY, re. any changes in T/E species in the area. The previous conclusion that there are none is still valid. At my request they are preparing a brief update report on this topic. The report should be available by early Feb. I will forward a copy to you right after I receive it.

Tom

Tom:

1. Does COGEMA know of any additional historic or cultural properties at Christensen/Irigaray outside of those already evaluated in the 1998 license renewal.

2. Does COGEMA have any recent wildlife or vegetative surveys or information pertaining to the following for Christensen/Irigaray? These are the ENDANGERED, THREATENED, PROPOSED AND CANDIDATE SPECIES listed by the U.S. FISH AND WILDLIFE SERVICE, ECOLOGICAL SERVICES, WYOMING FIELD OFFICE as of November 2007 for Johnson and Campbell Counties, WY. This list can be found at:  
[http://www.fws.gov/mountain%2Dprairie/endspp/name\\_county\\_search.htm](http://www.fws.gov/mountain%2Dprairie/endspp/name_county_search.htm) and searching under "by county within".

Black-footed Ferret *Mustela nigripes* E  
Ute Ladies'-tresses *Spiranthes diluvialis* T  
Canada Lynx *Lynx canadensis* T

We may have additional questions, but this will assist with our initial consultations.

Ron
